

FEES

Executive from: January 21st 2014

Register Fee: 0 ECU

Operation/Transaction Fee: 0 ECU

Account Maintenance Fee: 0 ECU

MINING RIGHTS (to create ECU):

Rules for Miners:

1. Total of Mining Rights: **1,971 rights per year**. They will be sold by strict order of request until finished. Each year they will be sold again, but previous miners had a first option to buy and renew them along the month of January of each year.
2. Price of a Mining Right: **1,000 Euros + VAT for one year** --- it **produces 5 ECU per day** along a whole year (1,825 ECU/year).
3. Mined ECU will be earned each day (can be charged afterwards), and will be charged by miners against the Admin Account. The concept put in the transaction will be: "MINING + Nr. Member account", in order to be able to control the payments charged by true members with Mining Rights.
4. "Mining Pools" can be made. The pools buys the mining right and earns the ECU, and then these are distributed among its members as a "gift"(dividends) in the CES web
5. Mining Scheme: total of **18,000,000 ECU to be mined in 5 years**, each one with an amount of 3,600,000 ECU. The ECU not mined each year goes to an account destined to be mined during the 6th year and the next ones, although the yearly amount to be mined then will be 1,000,000 ECU.

JOBS:

Local Coordinators:

Compensation: 0,10 €/day; 1 €/member registered due to them in ECUC-CES

Authorized Exchanger:

Compensation: maximum 1% of conversion amount payable in Euro or Fiat money. I.e. ECU converted to Euro for a total of 1,000 euros, then compensation is 10 euros. If the total converted would be 20,000 euros, the compensation would be 200 euros. And viceversa, Euro converted to ECU: if 5,000 euros are bought into ECU, then the compensation would be 50 euros.
